Chronic Diseases!

DR. FISHBLATT Has discovered the greatest cure in the world for weakness of the back and limbs, involuntary discharges, impotency, general debility, nervousness, languor, confusion of ideas, palpitation of the heart, timidity, trombiling, dimness of sight or gidiness diseases of the heart, throat, note or skin affections of the liver, lungs atomach or bowels—those terrible disorders arisis g from solitary habits of youth—and secret practices more fatal to their victims than the songs of the Syrens to the mariners of Ulysses, blighting their most radiant hopes or anticipations, rendering marriage impossible

YOUNG MEN

waked to ecstacy the living lyre, may call with full confidence. MARRIAGE.

ORGANAL WEAKNESS

Immediately cured and full vigor restored. This distressing affliction—which renders life a burden and marriage impossible—is the penalty paid by the victim of improper indugence. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now who that understands this subject will deny that pro-creation is not lost sooner by those falling into improper habita than by the prudent? Besides being deprived of the pleasure of healthy offspring, the most serious destructive symptoms of mind and body arise. The system becomes deranged, the physical and mental functions weakened. Loss of pro-creative power, irritability, dyspepsia, palpitation of the heart, indigestion, constitutional debility, wasting of the frame, cough, consumption and death.

A CURE WARRANTED.

DR. FISHBLATT, Graduate of one of the most eminent colleges in the United States, has effected some of the most astoniahing cores that were ever known, many troubled with ringing in the head and ears when asleep, great nervousness, being ainrmed at cer-tain sounds, with frequent blushing, attended sometimes with derangement of the mind, were cured immediately.

Take Particular Notice. Dr. F. addresses all those who have injured themselver by improper indulgences and solitary habits, which ruin both mind and body, endsting them for business, study, society or marriage.

These are some of the sad and melancholy effects produced by the early habits of youth, viz: weakness of the back and limbs, pain jin the head, dimness of sight, loss of muscular river, palpitation of the heart, dyspepsis, servous irrisability, derangement of the digestive functions, description, Sc.

P. H.—Those who reside at a distance, and can not call, will receive prompt attention through mait, by simplydeending their symptoms with postage.
